**RESPONSE OF THE CALIFORNIA ENERGY STORAGE ALLIANCE
TO THE MOTION OF THE CALIFORNIA WIND ENERGY ASSOCIATION,
THE LARGE SCALE SOLAR ASSOCIATION AND THE SOLAR ENERGY
INDUSTRIES ASSOCIATION TO EXPAND THE SCOPE OF TRACK 4**

Pursuant to Rule 11.1(e) of the Rules of Practice and Procedure of the California Public Utilities Commission (“Commission”), the California Energy Storage Alliance (“CESA”)¹ hereby responds to the *Motion of California Wind Energy Association, the Large Scale Solar Association and the Solar Energy Industries Association to Expand the Scope of Track 4*, dated June 14, 2013 (“Motion to Expand Track 4”). CESA urges the Commission to grant the Motion to Expand the Scope of Track 4. CESA is mindful of the challenges that Southern California Edison (“SCE”) faces in expanding the detailed modeling efforts that are presently underway, but must agree with the parties to the Motion to Expand Track 4 that the extra effort applied at

this time will smooth the way for the next stage of the necessary work that lies ahead over the next few months. CESA certainly agrees with the parties to the Motion to Expand the Scope of Track 4 that the Commission should “further expand and modify the scope for Track 4 to include consideration of the impact on the state’s greenhouse-gas-reduction goals of the loss of a facility which has served some 20 percent of Southern California Edison’s electricity load without emitting greenhouse gases or other emissions.” (p. 2).

Strong and focused emphasis on the benefits of preferred resources and energy storage, which is a central topic presently being considered by the Commission in the Energy Storage Rulemaking,² should enable the Commission to also achieve the goal of filling the need for flexible resources that will assure efficiency and reliability of the grid.

Respectfully submitted,
